# Assignment 3

Create form in HTML with all form elements apply form validations

Apply form validations (e.g. Email, mobile, Pin code, Password)

FormValidation.js

```javascript
function validateForm() {

    var fname=document.getElementById("fname");
    var lname=document.getElementById("lname");
    var email=document.getElementById("email");
    var phno=document.getElementById("mobileno");
    var pincode=document.getElementById("pincode");
    var income=document.getElementById("income");

    if(fname.value.trim()=="") {
      alert("Enter your First Name");
      return false;
    }
    if(lname.value.trim()=="") {
      alert("Enter your Last Name");
      return false;
    }
    if(email.value.trim()=="") {
      alert("Enter your Email ID");
      return false;
    }
    if(phno.value.trim()=="") {
      alert("Enter a Phone Number");
      return false;
    }
    if(pincode.value.trim()=="") {
      alert("Enter a Pincode");
      return false;
    }
    if(income.value.trim()=="") {
      alert("Enter an Income");
      return false;
    }
    return true;
}
```

Fulfil your wishes...

Home   Loans   Contact Us   Tutorial

In these times of high inflation, higher medical costs, and grandiose lifestyles, there are many senior citizens who are in need of loans to fulfill some of their requirements: for example, a temporary medical emergency where insurance may not be enough, or buying of property where the borrower needs partial or full funding. We are offering loan for senior citizens at very low rates.
